SUBJECT INDEX TO VOLUME 12

Aortic stenosis, sudden death in, 751
Axonal dystrophy, presenting as megacystis-microcolon-intestinal hypoperistalsis syndrome, 743

Beckwith-Wiedemann syndrome, 197

Carotid artery, and multicystic encephalomalacia, 701
Cerebrocostomandibular syndrome, 717
Choriocarcinoma, in partial hydatidiform mole, 601
Chronic granulomatous disease, 839
Cocaine, fetal distribution of, 463
Coexisting endogenous lipoid pneumonia, cholesterol granulomas, and pulmonary alveolar proteinosis in pediatric population, 365
Congenital diseases:
  cardiac fibroma, and Gorlin syndrome, 255
  cystic choristoma, oral, 835
  lipoblastoma, 857
  mesoblastic nephroma, and nucleolar organizer regions, 811
  syphilis, in twin, 865
Conjoined twins, four cases, 691
Consumptive coagulopathy in utero, and multiple vascular malformations, 67
Cystic fibrosis, immunofluorescence studies of lung tissue, 313
Cytomegalovirus infection, pseudo-meconium ileus, 73

Dermatoglyphics, and sudden infant death syndrome, 637
Digestive tract involvement, and Langerhans cell histiocytosis, 515
Down syndrome, ring tracheal cartilages in, 673

Ebstein's anomaly, and osteogenesis imperfecta, 425
Endotracheal intubation, and laryngeal muscle regeneration, 155

Fetal heart block, and massive placental infarction, 131
Fetal listeriosis, during second trimester, 665
Fetal lung, transthoracic herniation of, 417
Fetal rhabdomyoma and nevoid basal cell carcinoma syndrome, 441

Ganglioneuroblastoma, in a 22-week fetus, 583
Glomerulonephritis, mesangiolytic poststreptococcal, 113
Glomic cells, in fetal carotid body, 823
Glycogen storage disease, and leukocyte inclusions, 903
Gorlin syndrome, and congenital cardiac fibroma, 255
Granulomatous meningoencephalitis, and leptomyxid ameba, 871
Granulomatous villitis, and toxoplasma gondii, 281

Hemangioma of the lung, in infant, 105
Hemophagocytic syndrome, pathogenesis and clinical significance of, 309
Hepatic rhabdomyomatous tumor, 449
Hepatoblastoma:
  significance of histologic type, 167
  undifferentiated small cell, and unique chromosomal translocation, 457
Hirschsprung's disease:
  hyperplasia of lymphoglandular complexes, 575
  possible viral etiology, 807
Histiocytes, and hemophagocytic syndromes, 51

Infantile myositis, and leukoencephalopathy, 289
Iniencephaly, brain stem and cervical cord lesions in, 469
Intestinal neuronal dysplasia, and sigmoid stenosis, 275
Intrahepatic cholestasis, causes of, 269
Intrauterine parvovirus B19 infection, and erythoid inclusions, 883

Juxtagonadal mesonephric glomeruli, in fetuses of 11 to 21, 683

Kidney, inflammatory pseudotumor of, 557

Langerhans cell histiocytosis, and digestive tract involvement, 515
Laryngeal muscle regeneration, and endotracheal intubation, 155
Leukocyte adhesion deficiency, clinical and postmortem observations, 119
Leukoencephalopathy, and infantile myositis, 289
Liver, angiosarcoma, 485
Lymphoma, follicular center cell, 191

Male pseudohermaphroditism, in XY children with female phenotype, 29
Maternal, oxytocin overdose, and perinatal hepatic necrosis, 761
Measles pneumonitis, patterns of, 773
Meconium periorchitis, 851
Ménétrier's disease, pediatric hypertrophic gastropathy, 263
Mesenchymal hamartoma, of the chest wall, 525
Mesothelial and related neoplasms, 333
Myentric plexus, microdissection study of, 385
Myocardial dysgenesis, with persistent sinusoids in neonate, 83
Myocardium, fatty change of, 325
Myositis (fasciitis) ossificans, in infant, 223
Myotubular myopathy, X-linked, 535

Necrotizing enterocolitis:
clue to the pathogenesis of, 15
in ileum of neonatal piglets, 1
Neurofibromatosis cerebral vasculopathy, 613

Osteogenesis imperfecta, and Ebstein's anomaly, 425

Pediatric hypertrophic gastropathy, Ménétrier's disease, 263
Presacral sacrococcygeal teratoma, and sacral "epignathus," 99
Pulmonary hypertension:
and alveolar capillary dysplasia, 499
and coexisting portal hypertension, 433
Pulmonary hypoplasia, and pulmonary arterial thickness, 653

Reactive follicular hyperplasia of intraparotid lymphoid tissue, 737
Rectal myopathy, in chronically constipated children, 787
Renal dysplasia, situs inversus totalis, and multisystem fibrosis, new syndrome, 215
Rhabdomyomatous mesenchymal hamartoma, of skin, 731
Rhabdomyosarcoma, in congenital pigmented nevus, 93
Rhizomelic chondrodysplasia punctata, 593

Sacral joint, pigmented villonodular synovitis in, 725
Sialoblastoma, 205
Sigmoid stenosis, and intestinal neuronal dysplasia, 275
Small intestinal musculature, segmental absence of, 407
Sudden and unexpected death in infancy, and single coronary artery, 231
Sudden infant death syndrome (SIDS):
and cytomegalovirus inclusion bodies, 185
and dermatoglyphics, 637
Syphilis, conjenital, in a twin, 863

Toxoplasma gondii, and granulomatous villitis, 281
Trachea, pleomorphic adenoma (benign mixed tumor), 563
Tracheal cartilaginous sleeve, 349
Trisomy 13, fluorescent detection of, 799
Trophoblastic disease, and proliferating cell nuclear antigen, 147
Tuberculosis, acquired perinatally, 707

Varicella infection, maternal, 545

Wilms' tumor:
after treatment, 397
and fatal paradoxical embolism, 551
